**Subject:** PCR reports

Robert:

You will find enclosed the two PCR documents which you were promised. One is a report concerning the development of the biomarker and the second is a report of the first large scale application of the developed method to the samples which have been collected. In order to get these to you as last promised, I have not had them bates stamped. Bates stamped copies will follow probably on Wednesday. If you have further questions, please let me know.

Louis Bullock
